

Front Panel Lineup:
 Pilot Fuse On/Off Tone Volume Instruments Tremolo
 Light Switch 1 2 3 4 On/Off, Rate Postswitch

Tube Lineup, as seen in order on chassis:
 V1 6AV6
 V2 6X4
 V3 6AV6
 V4 6AV6
 V5 6AV6

Notes:
 Unless otherwise noted all resistors are 5%, 1/2 watt.
 The tremolo rate control is a 500K potentiometer with a 20K resistor in series.
 This schematic was created by tracing out units available on hand; cabinet configurations.
 Normalizing seen in a cabinet labeled by 'Real' or 'Real'.
