

# The Nokia 1208

September 22, 2008

## The control buttons

The function of the selection buttons keep changing. The screen always shows you what they're for.

What the other buttons do:

<b>Button</b>	<b>When at the main screen</b>	<b>When not at the main screen</b>
Green	If there are <u>any</u> digits on the screen, dial them, otherwise show the list of dialed numbers	Nothing
Red	Turn the phone off or change profiles or end call	Power (hold the button down) or go to main screen or end call
Left scroll	Type a text message	Move left, previous
Up scroll	Flashlight(double-click to turn on)	Move up, previous
Down scroll	Show contacts	Move down, next
Right scroll	Show calendar	Move right, next

Note: there's no button in the middle

## The Icons

	Signal strength 1-5 bars
	1 or more voicemail messages are waiting to be heard
	There's an unread text message in the inbox. This includes internal "Special Messages"
	Battery charge 1 bar: 0 to 1 days left 2 bars: 1 to 2 days left 3 bars: 2 to 3 days left 4 bars: 3 to 4 days left 5 bars: 4 to 5 days left 6 bars: 5 to 9 days left
	Ringing/Call in progress

## Power

- Battery life: about 9 days
- Charging time: 2 1/2 hours

## Flashlight

At the main screen, double click on the up button

## Backlight

Press any button to turn it on, but beware that the button you press will still perform it's usual function. By default, it shuts off after 15 seconds. How to change that to 30 seconds:

Menu -> settings -> display settings -> backlight time -> extended

## Checking firmware version

\*#0000#

## Default settings for the various profiles

To change from one profile to another  
red button -> up and down buttons

To modify the settings:  
menu -> settings -> profiles

	<b>Normal</b>	<b>Silent</b>	<b>Discreet</b>	<b>Loud</b>	<b>Lights only</b>	<b>My profile</b>
<b>ringing tone</b>	nokia	nokia	beep once	nokia	nokia	nokia
<b>ringing volume</b>	4	off	1	5	off	3
<b>vibrating alert</b>	on	off	on	on	on	on
<b>message alert tone</b>	std	off	1	3	off	std
<b>keypad tones</b>	2	off	1	3	off	2
<b>warning tones</b>	on	off	off	on	off	on
<b>rhythmic backlight alert</b>	off	off	off	off	on	off
<b>Themes</b>	7	7	7	7	7	7
<b>screen saver</b>	off	off	off	off	off	off

flashlight (it's easier to double-click the up button instead)  
demo  
    basics - make a call, answer a call, send text message  
    more - set an alarm, ringing tones, themes

## Using the 1208 with SpeakOut from 7-11

### Credits

- if credit is not applied to your phone within 90 days from purchase, you lose it!
- All credits expire after a year, even the \$25 one!
- 99 cents is deducted every month ("911 fee")
- Phones come with a \$5 credit, calls are 25 cents per minute

### Long distance calls

What will be a long distance call and what's local? It seems there's no straight answer.

According to customer service ...

Calls to the same area code as your phone are local

Calls to all other area codes are long distance

Example, if your phone is from Ottawa, area code 613

Ottawa to Hull	long distance
Ottawa to Vancouver	long distance
Ottawa to Cornwall	local
Vancouver to Vancouver	long distance
Vancouver to Ottawa	local
Vancouver to Cornwall	local

However, I made a call from Ottawa(613) to Hull(819) and was only charged 25 cents

### Voice mail

- It's free... unless you use your cell phone to check your messages
- When a message is left, the phone makes a noise. The voicemail icon  appears on the phone and stays until you listen to the message. Access from a regular phone is free. Call your cell phone number, and when the voice mail system answers, press # and enter your code.
